

The following numbers are not available in the Sulky color line in this country and never have been, except for the 9 that are noted and were added in 2005. These colors are available in Europe. When we added the 106 new colors to our product line a number of years ago, we opted not to include 32 (now 23) colors because some were just too close to what we already had in the Sulky line or because we also wanted to add more new multicolors and variegated threads at that time. Here are the comparable colors available in the U.S. at www.sulky.com :

508 - use 1082 Ecru - added in 2005, now available in the U.S.
520 - use 1082 Ecru - added in 2005, now available in the U.S.
534 - use 1169 Bayberry Red
